- 1978** Graduated from Bruno's School of Hair Design

Since the age of 16, Lina has loved the beauty and fashion industry. Keeping on top of the latest techniques and styles has been critical through her 35 years as a hairstylist. This keen attention to detail has given her an edge in her commercial and editorial work, serving her well on set for television (a sitcom and morning show), and film. Her expertise, artistry, and commitment to life-long learning carry over into the realm of instruction as well, teaching advanced hair techniques in cutting and extensions. Knowledge is power and knowing how to make clients look and feel gorgeous is deeply satisfying!
